B.S.E. in Career and Technical Education with Business Technology Education Concentration

A Bachelor of Science in Education degree in Career and Technical Education is a teacher licensure program that prepares graduates to teach career and technical education courses at the high school, junior high, or community college levels. The business technology education concentration prepares students to teach in the areas of accounting, banking, business finance, business law, computer applications, hospitality and tourism, management, and marketing.

The Business Technology Education concentration is a specialized field of study within the career and technical education program at the University of Arkansas.
